Hello,

As a resident of Menomonie for over 10 years and mother to a young child, I am urging you to support the Gender Support Plan being purposed to the Menomonie School Board this evening. It is important to me to know that my child will be supported at their school regardless of how they identify. Schools should be a safe place for students, not another location for them feel judged and shamed. I do not support any plan that would not recognize a student's gender identity or would make it difficult for them to feel accepted at school. I hope the community that my family has grown to love in Menomonie is the same community we will experience as my child grows and receives their education through the Menomonie School District.

Thank you for supporting this plan.

Alissa Olejniczak
