(Janet, could you please include this in tonight's meeting? Thank you!)

Hello Members of SDMA School Board,

I support masking in the district until students are able to be fully vaccinated. Since students in 4K-6 are not currently eligible, at the very least those grades should require masks of all students and staff.

I support teachers being able to group students to keep them safe. If masks are required and worn then this is a moot point.

I support the current SDMA gender plan. I have a child who has personally benefited from the plan. Her identity was respected.

Thank you
Christine Woodward
