Community Conversations The Future of Healthcare

Paul Horvath, MD, FACEP

Objectives

Discuss the development of the US healthcare system

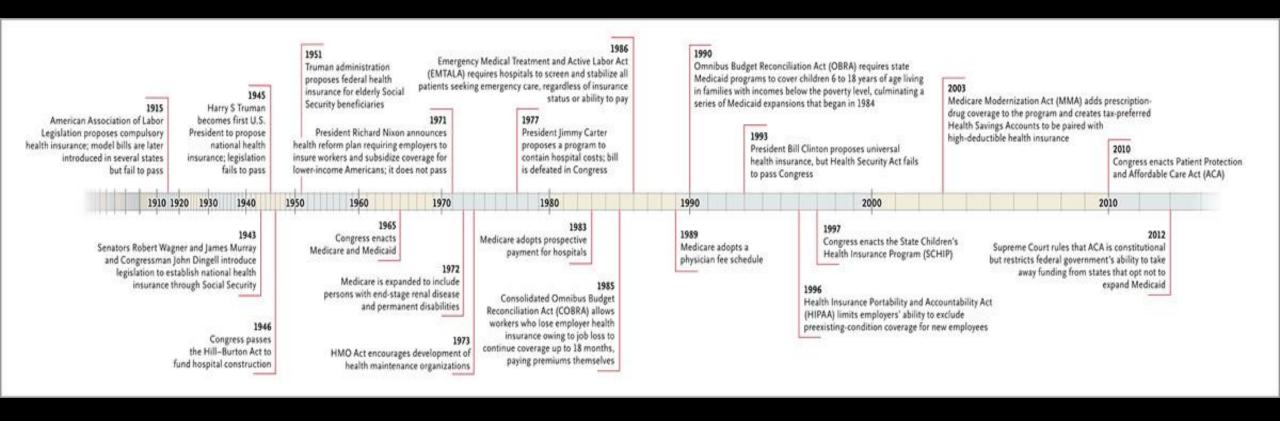

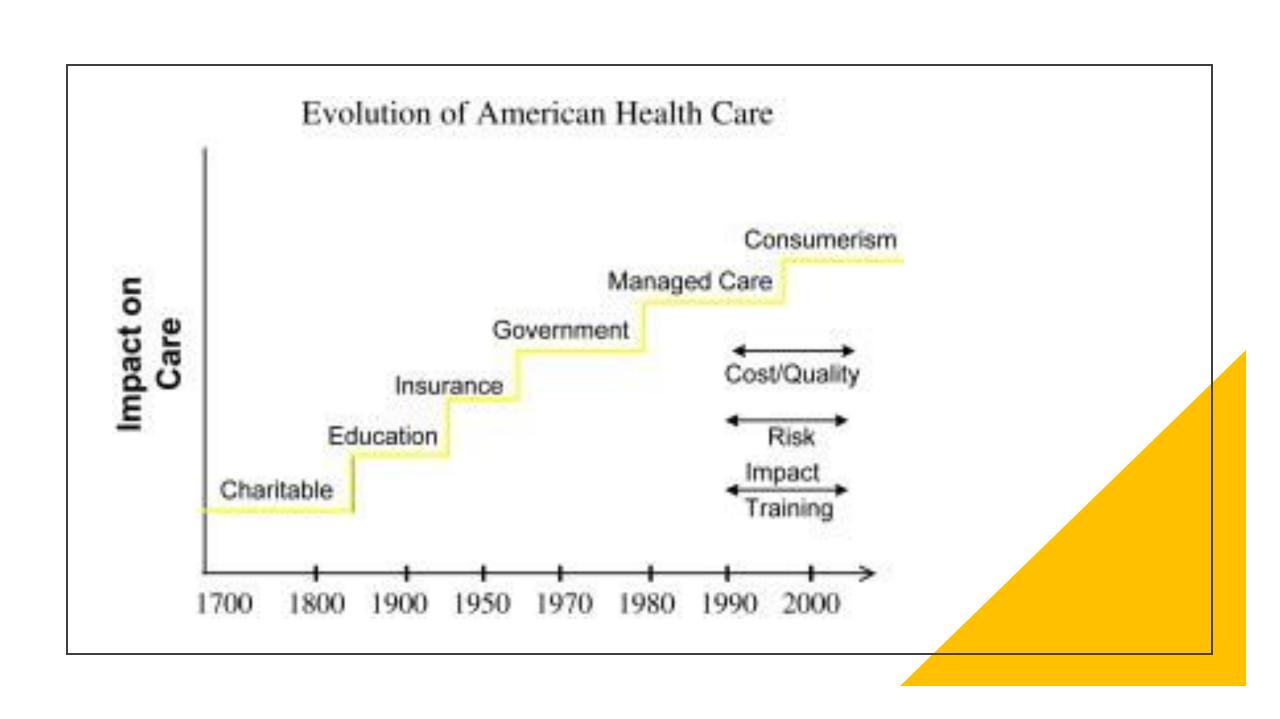

Understand the current state of healthcare as an industry in the US

Consider possible future developments

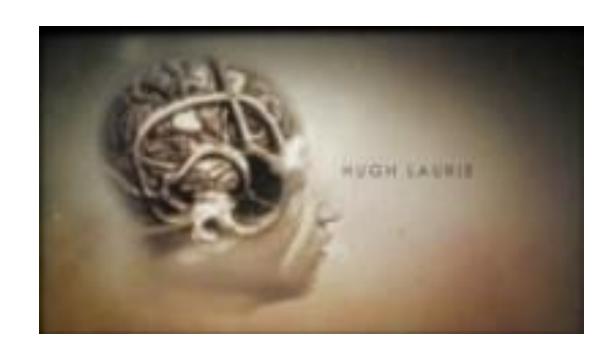

Timeline — A Century of Health Care Reform in the United States.

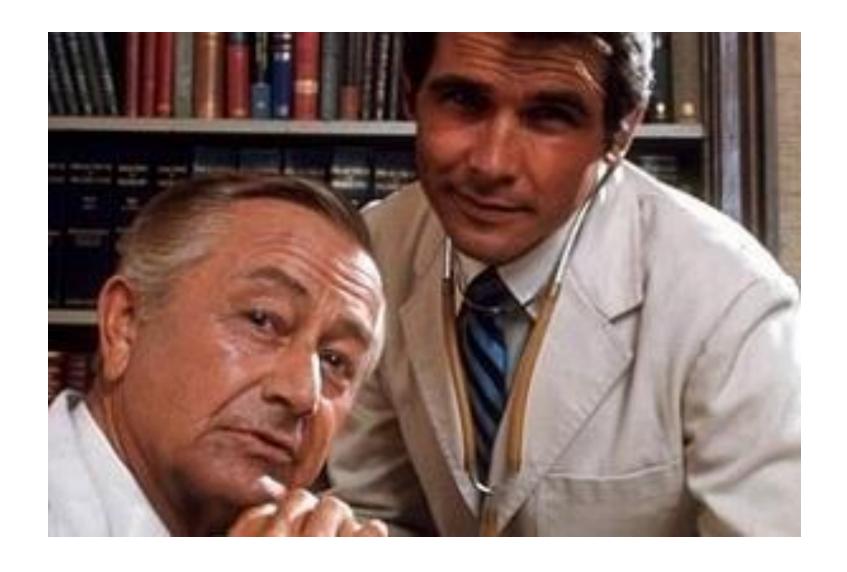

Pre WWII

1940s & 50s

1960s & 70s

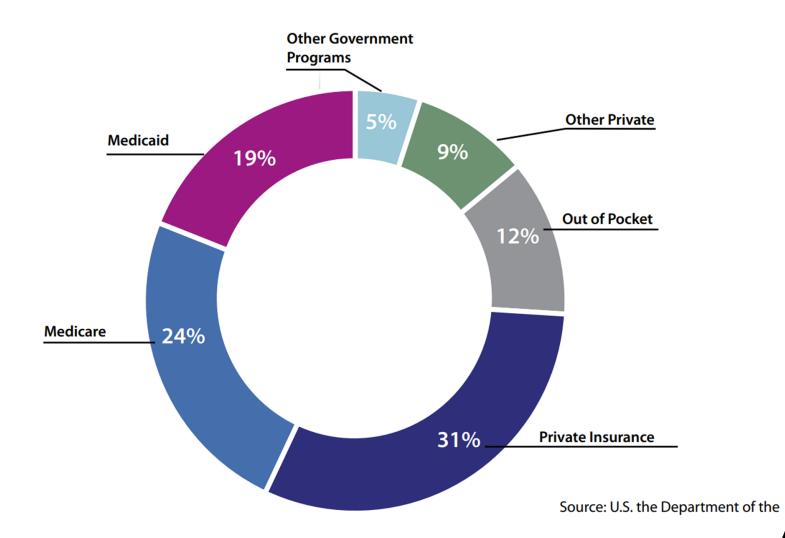

1980s & 1990s

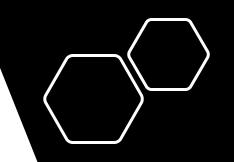

Today

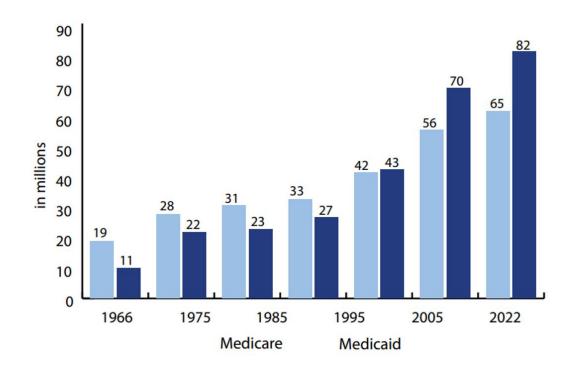

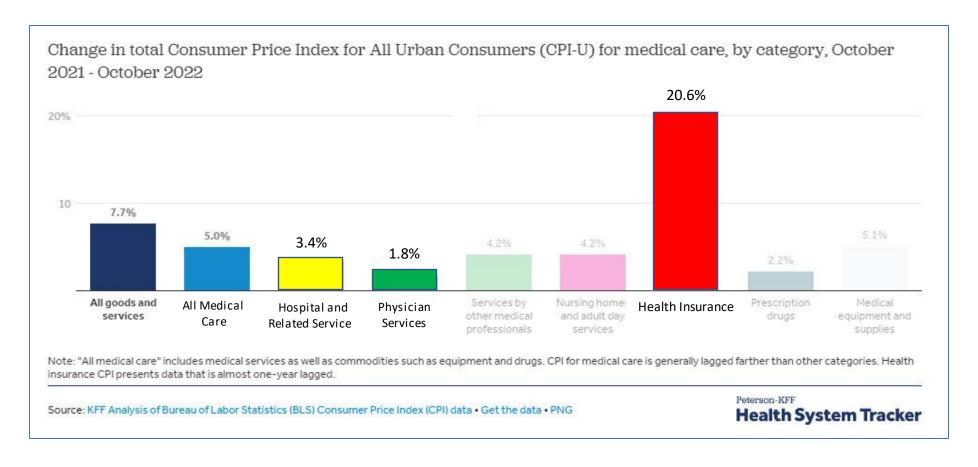

Medicare & Medicaid

2022 PROGRAM ENROLLMENT

CMS is one of the largest purchasers of health care in the world. Medicare, Medicaid, and Children's Health Insurance Program (CHIP) provide health care for one in four Americans. Medicare enrollment has increased from 19 million beneficiaries in 1966 to approximately 65 million beneficiaries. Medicaid enrollment has increased from 11 million beneficiaries in 1966 to about 82 million beneficiaries.

Premiums paid to health insurance companies rising.

In 2022, the CPI for hospital and physician care rose 3.4% and 1.8% while health insurance prices rose a whopping 20.6% (KFF)

Delivering Care in a Challenging Environment

Reduce Regulatory Burden

The conversion from paper to electronic requires more time from the workforce.

The average-size U.S. hospital devotes 59 FTEs to regulatory compliance.

U.S.
EHR time, not face-to-face time is three times more than EHR time

The entire UK visit is shorter than the time US physicians spend in the EHR.

Cost & Quality

Rhetoric vs Reality

WISCONSIN HOSPITALS LEAD THE WAY IN

Wisconsin is Ranked:

4th Largest Share of Five-Star Hospitals in the Country | Wisconsin hospitals' have the fourth-most five-star rated hospitals in the country, according to the 2023 Overall Hospital Quality Star Ratings from the Centers for Medicare & Medicaid Services (CMS). Read more.

Second Best in the Nation for Rural Hospitals | Wisconsin's rural hospitals rank the second best in the country by the Medicare Beneficiary Quality Improvement Program and has been in the top 10 states in the country ever since 2015.

Top Quartile in the Nation for Quality Care | The federal Agency for Healthcare Research and Quality (AHRQ) ranks Wisconsin in the top quartile of states for quality healthcare.

8th Lowest Cost of Care in the Nation | Forbes magazine recently released data showing Wisconsin's overall cost of care is the 8th lowest in the country.

7th Lowest in the Nation of Cost Deterring Patient Care | According to United Health Foundation's America's Health Rankings, Wisconsin has the 7th lowest rate of patients who are deterred from seeking care due to cost.

Price Transparency

Wisconsin hospitals have led the nation in their willingness to share information on the cost, quality and safety of the care they provide in their communities – making Wisconsin a national model for health care transparency.

Since 2005, Wisconsin hospitals have voluntarily provided information to consumers through the Wisconsin Hospital Association Information Center's PricePoint tool on a per-facility, per-procedure basis for the most common services.

The number of Wisconsin hospitals cited by CMS for lailure to comply with federal price transparency law

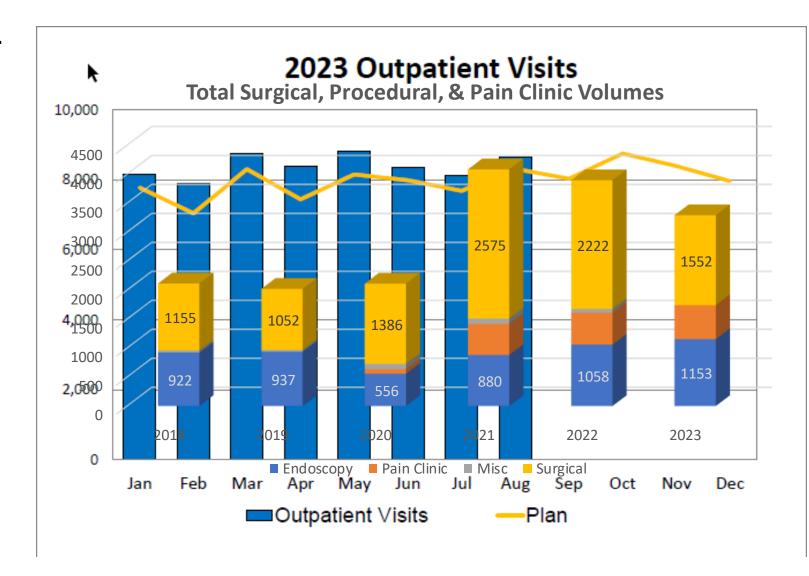

Wisconsin acute care hospitals average 4-5 stars out of 5 on the Turquoise Machine Headable File (MRF) Transparency Score

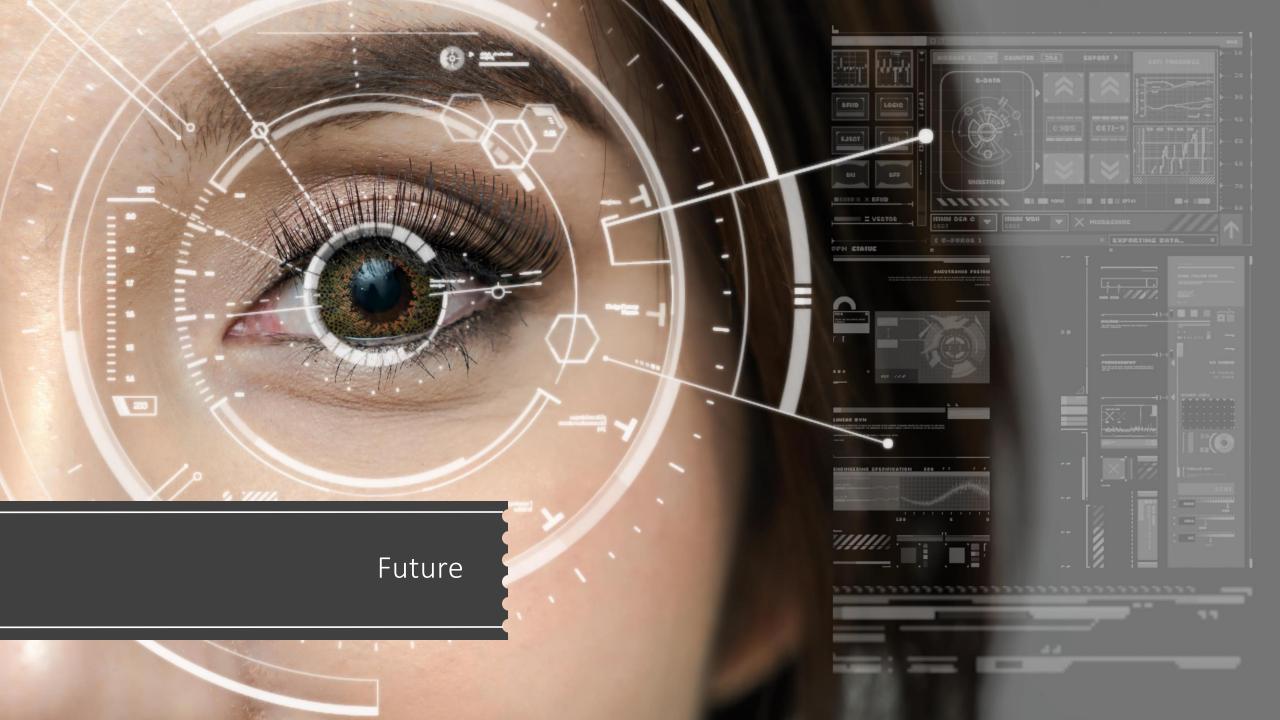

The percentage of Wisconsin hospitals with complete charge data on PricePoint.
